

Why I'm Bringing This to You

I want to grow in this role — not just clinically, but as a leader in the practice. The RDA to Leader program gives me the tools to lead myself, support the team, and help the business succeed. I'm ready to step up — and this training can help me do it.

What the Program Includes

- 7-Month Guided Training Program
- Weekly video lessons on leadership, professionalism, communication, workflow quality, and business acumen
- Group coaching and peer learning
- Built-in conversations and reflection tools with YOU — my leader
- Real-world assignments focused on improving team performance and operations

What You'll Gain as My Leader

- A more capable RDA who can lead workflows, solve problems, and model professionalism
- Stronger bench strength when key team members are out, leaving, or promoted
- More alignment and personal ownership in the practice's goals
- A trusted internal voice who can support training, onboarding, and culture

The Cost (vs. the Cost of Doing Nothing)

\$1,499 total or \$249/month for 7 months

👉 Replacing a great RDA? That could cost you \$5,000–\$10,000 in recruiting, onboarding, and lost production.

👉 Investing in me now builds loyalty, leadership, and a stronger team.

What I'm Committing To

- Show up fully for the program
- Apply the lessons immediately in my role
- Have monthly check-ins with you to discuss what I'm learning
- Use this opportunity to grow — for my career *and* the good of the practice

Next Step

Can we set 15 minutes this week to talk about what this could look like for our office?
